

COBREC®

Catálogo de Aplicações **LINHA MOTO 2024**

TMD friction

Segurança e alta performance seja qual for o seu estilo

A linha de produtos mais completa

Desenvolvemos linhas especiais para todas as categorias de motos, com a linha mais extensa do mercado, dispomos de produtos de alta tecnologia para que você tenha a segurança e a performance necessária seja qual for o seu estilo de pilotagem.

Nossos produtos são extensivamente testados em nosso avançado centro de pesquisa e desenvolvimento, para garantir aos nossos usuários o melhor conforto com a maior segurança na utilização dos nossos produtos.

LINHA
Street

Quando a questão é a utilização em ambientes urbanos e que exigem grande mobilidade em frenagens com performance e segurança, a **Linha Street** é a escolha ideal a ser utilizada para todas as motos de até 400 CC, que exigem melhor poder de frenagem e baixo desgaste do disco/cubo.

Além das pastilhas e patins de freio, conheça também os demais produtos que fazem parte da gama da **Linha Street**.

Sensibilidade à velocidade

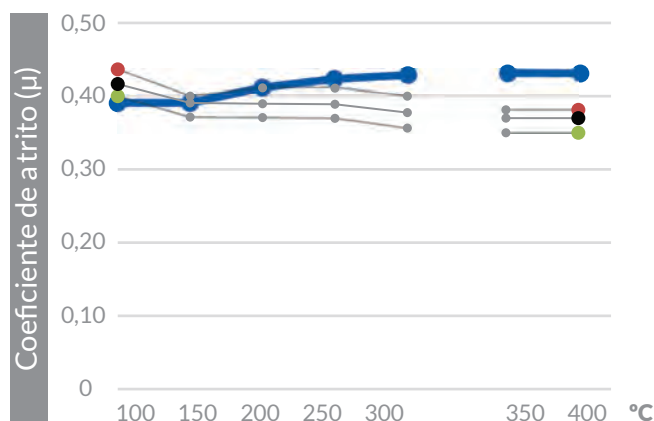

As pastilhas de freio **Cobreq Street** possuem, em diferentes faixas de velocidade, níveis de atrito adequados as aplicações, mesmo com a motocicleta carregada ou em condições de trânsito adversas.

● **COBREQ Street** ● Concorrente A ● Concorrente B ● Concorrente C

Sensibilidade à temperatura

Comparando as pastilhas de freio **Cobreq Street** com demais materiais do mercado, observamos menor variação do nível de atrito em todas as faixas de temperatura, o que resulta em melhor performance.

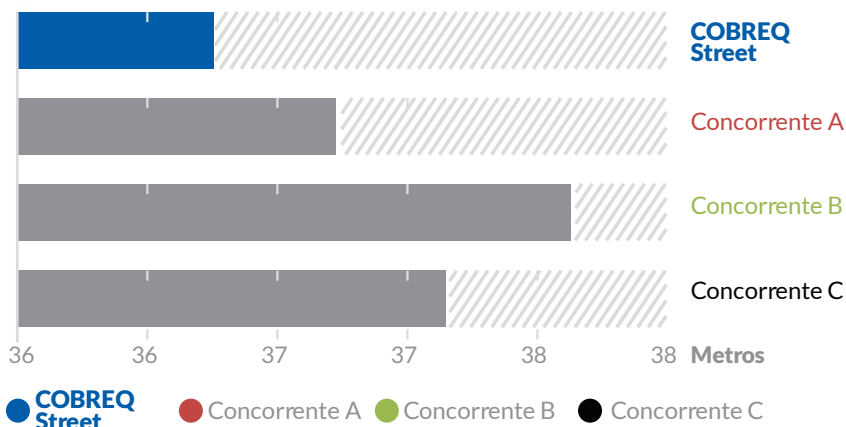

● **COBREQ Street** ● Concorrente A ● Concorrente B ● Concorrente C

LINHA
Street

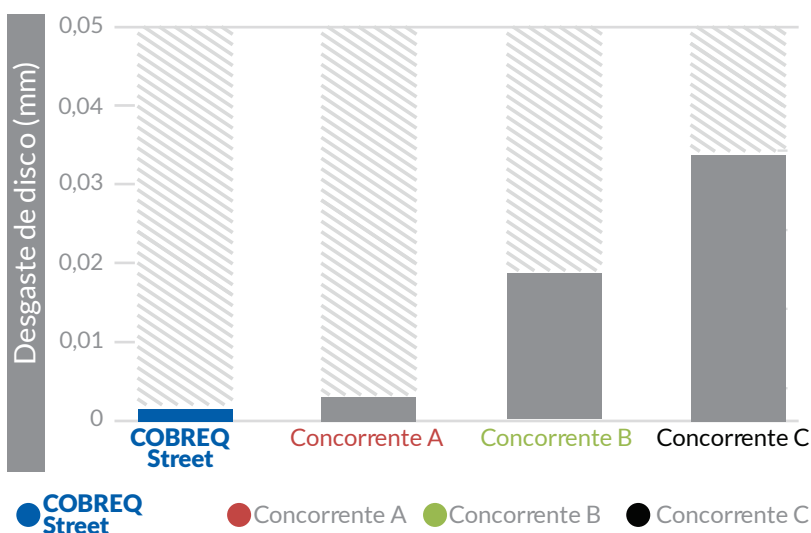

Distância de Parada 80 a 30 km/h

A distância de parada proporcionada pelas pastilhas de freio **Cobreq Street**, é a menor, o que traduz-se em mais segurança ao condutor e eficiência de resposta quando acionado os freios.

Desgaste de Disco

As pastilhas de freio **Cobreq Street** oferecem menor desgaste de disco em comparação aos demais materiais do mercado, trazendo ao consumidor maior durabilidade do conjunto.

Vantagens

Algumas vantagens em utilizar pastilhas de freio **Cobreq Street**:

- **A estabilidade e integridade física das pastilhas de freio Cobreq Street**, mesmo que expostas a diversas situações de rodagem - velocidade, temperatura e carga - conferem condução segura e frenagem precisa.
- **A excelente durabilidade** das pastilhas de freio Cobreq Street, associada ao baixo nível de desgaste do disco, gera maior autonomia a motocicleta e consequente autonomia ao usuário.
- **Segurança: a performance superior** das pastilhas de freio Cobreq Street, contribui para frenagens mais seguras, pois traduzem em menor distância de parada a estabilidade da motocicleta.

LINHA

CUSTOM

Para as motocicletas estradeiras, a **Linha Custom** foi especialmente desenvolvida diferente do processo tradicional e caracteriza-se por possuir alto teor metálico sendo produzido por metalurgia a pó.

Este material sinterizado, segue as mais rígidas normas dos fabricantes originais compondo também isolador e garantindo assim melhor desempenho e mais conforto.

LINHA
Racing

Para aplicações de alta performance a **Linha Racing** da **Cobreq** é a escolha ideal, essa aplicação foi especialmente projetada para motocicletas a partir de 500 CC, que exigem um melhor poder de frenagem devido as altas temperaturas, com menor desgaste das pastilhas e dos discos de freios, em sua composição são utilizados materiais de fibra de aramidas e kévelar e testados em ambientes extremos de competições como Moto GP, Superbike, Stock Car e F-Truck, assegurando a qualidade e confiabilidade da marca.

NOVA
FORMULAÇÃO

LINHA
**Racing
Extreme**

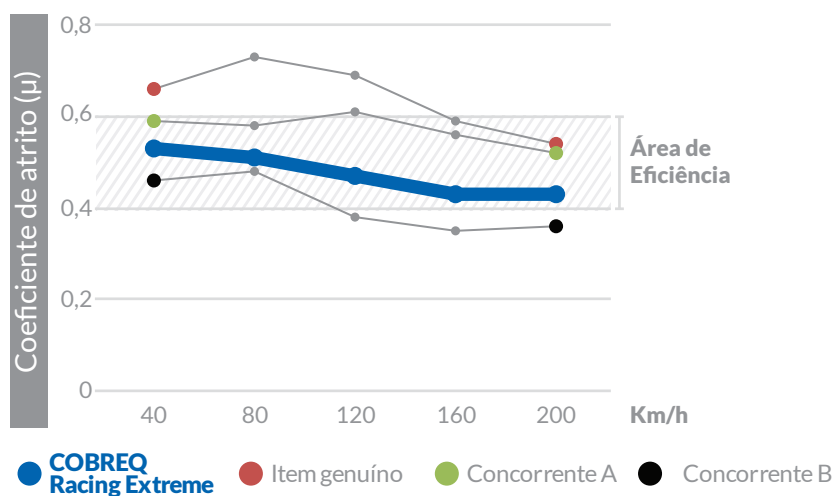

As pastilhas de freio da **Linha Cobreq Racing Extreme** foram desenvolvidas em pesquisas e avaliações durante um período superior a 2 anos, contando com a atuação, tanto no Brasil quanto na Europa, de profissionais especializados em novas tecnologias de materiais, além de laboratórios de testes e aplicação.

O material de atrito cerâmico **Cobreq Racing Extreme** tem como características especiais, matérias-primas e fórmulas inovadoras, além de exigentes processos de fabricação, resultando em um material de atrito diferenciado, com baixo uso de materiais orgânicos, portanto mais resistente e com nível de atrito mais estável em diferentes faixas de temperatura.

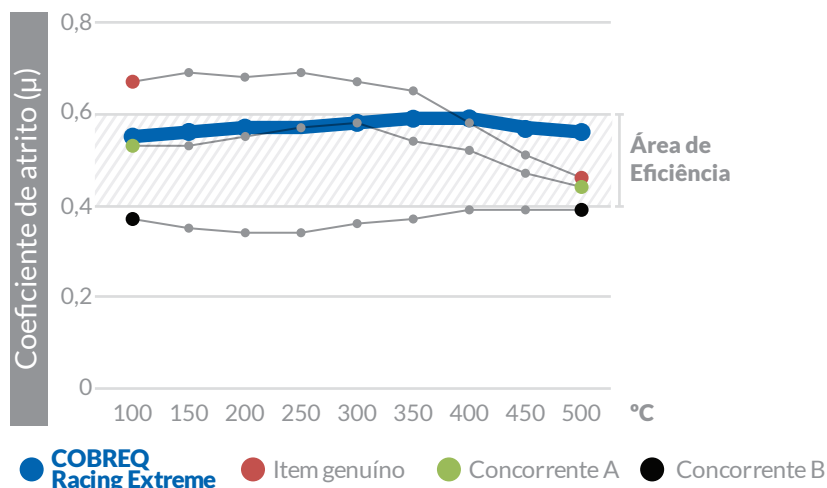

Sensibilidade à velocidade

O material de atrito **Cobreq Racing Extreme** possui excelente estabilidade a diferentes velocidades de frenagem, tanto em uso diário em ambientes urbanos relacionados a baixas velocidades (40 km/h, por exemplo), quanto em condições severas de performance que exigem do sistema de freio uma maior estabilidade e resposta, como a 200 km/h, por exemplo.

Sensibilidade à temperatura

No comparativo de exposição às variações de temperatura, o material de atrito **Cobreq Racing Extreme** demonstra clara superioridade em comparação aos demais materiais concorrentes do mercado e até quando comparado ao item genuíno. A sua variação de coeficiente de atrito se mantém constante, desde temperaturas normais de uso como 100°C até condições severas de 500°C.

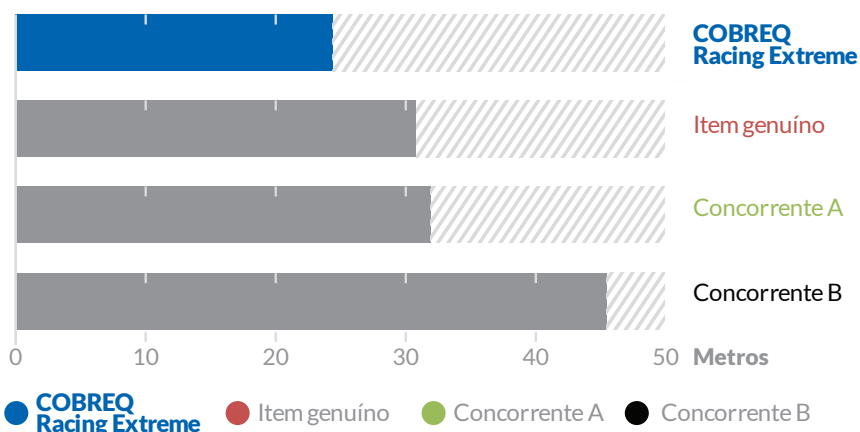

LINHA **Racing Extreme**

NOVA
FORMULAÇÃO

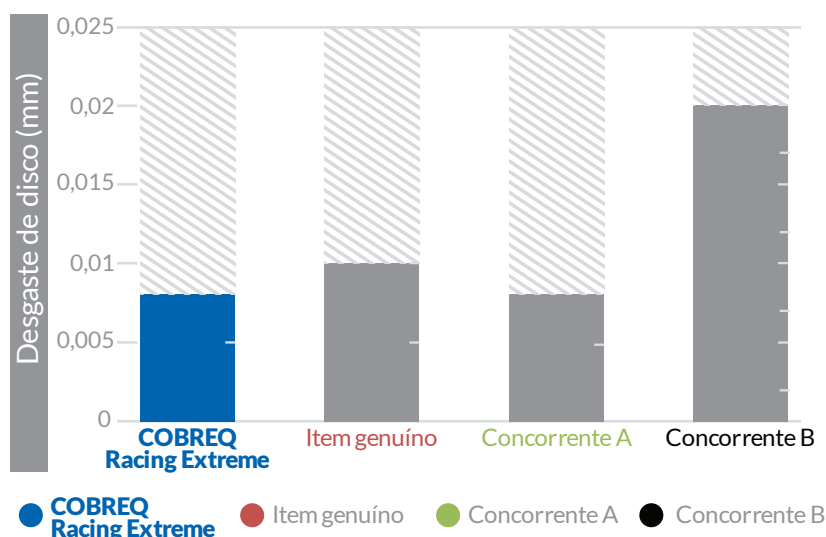

Distância de Parada **80 a 30 km/h**

Além do conceito de alta performance, o material de atrito **Cobreq Racing Extreme** foi desenvolvido seguindo rigorosos critérios relacionados à segurança para o condutor ou piloto, no qual possui uma resposta muito superior aos demais quando comparado ao resultado da distância de parada.

Desgaste de Disco

O material **Cobreq Racing Extreme** apresenta ótimo compromisso em relação a desgaste de disco em comparação com demais qualidades de materiais de atrito existentes no mercado.

Vantagens

Algumas vantagens em utilizar material de atrito cerâmico:

- **Resiste à altas temperaturas sem deterioração.** O efeito que chamamos de fading, a redução do nível do coeficiente de atrito em altas temperaturas, devido ao uso prolongado do freio, é minimizado devido a ótima estabilidade do material.
- **A estabilidade do coeficiente de atrito é melhor** que as pastilhas de freios de composição semimetálicas.
- **Segurança:** como o desempenho do material de atrito **Cobreq Racing Extreme** é superior, cada centímetro diminuído na hora da frenagem, reflete em segurança.
- **O desgaste do disco é reduzido** e isso, gera benefícios para o consumidor.

PATINS DE FREIO

com nova tecnologia ////

Para
motos até
400cc

Razões para **Comprar**

Melhor resistência mecânica

- Liga de alumínio injetado de alto padrão e sem emendas
- Acabamento antioxidante
- Material de fricção ecológico

Nova tecnologia

- Desempenho semelhante ao original
- Resposta de frenagem mais rápida e estável
- Maior segurança de condução

Amplo portfólio

- 16 códigos "standard"
- 4 códigos "sobremedida"
- 90% de cobertura da frota de motos com freio a tambor

Benefícios adicionais

- Já vem com kit de molas de retorno
- Produto amigo do meio ambiente

COBREG®

Patim de freio

Desenvolvido especialmente para utilização em motocicletas, tanto em freios traseiros, quanto dianteiros. São fabricadas em material de baixa densidade com alta resistência ao cisalhamento. Outro diferencial é que todos os patins são fornecidos com molas de retorno garantindo o melhor funcionamento do sistema de freio.

São projetados para atender os padrões estabelecidos para os níveis de atrito das montadoras conforme norma SAE J661 proporcionando uma frenagem segura e baixo índice de desgaste do material.

Cubo de roda Espelho Flange

Produzidos com uma liga de alumínio especial que alia um material mais leve e que cumpre com tranquilidade os requisitos de segurança estabelecidos.

A parte interna do anel é feita em aço e possui uma rugosidade que em contato com o patim de freio contribui para o bom desempenho do conjunto. Além disso, estes itens recebem pintura especial anticorrosiva, maior durabilidade. O projeto construtivo e componentes asseguram rodagem e frenagem perfeita.

Disco de freio

O disco de freio Cobreq é composto com uma propriedade diferenciada de aço inoxidável 12Cr13, possui menor teor de carbono, tornando o produto com maior durabilidade e menor índice de desgaste se comparado com as outras marcas.

Disco de embreagem

Os coeficientes estático e dinâmico dos Discos de Embreagem asseguram a estabilidade do arranque e a direção dinâmica necessários para uma boa condução. Os discos internos fazem o cubo da embreagem girar, transferindo a potência, enfim, para a transmissão/caixa de câmbio. Do eixo primário, eixo secundário (ligações com engrenagens), para o pinhão.

Quando a embreagem está no neutro ou quando se está pressionando o manete da embreagem, ela trabalha solta. Uma vez que se engrene a marcha e se acelera, elas trabalham unidas efetuando o repasse da força para a caixa de marchas, através do eixo primário e secundário, que está ligado ao pinhão, que faz girar a roda. Os Kits de Cubo, Disco e Platô da **COBREQ** disponibilizados ao mercado utilizam Disco de Embreagem nestes mesmos padrões de projeto.

Kit de embreagem

O Kit Cubo, Platô e Disco de Embreagem é produzido com materiais com resistência superior e com disco de fricção adequado para o tipo de aplicação no qual a estabilidade dimensional e construtiva, garante que a embreagem abra e feche livremente sem desalinhamento do conjunto, evitando assim, “trancos e escorregamento”. Tudo isso para proporcionar uma pilotagem mais suave e segura.

Cabos

A gama mais extensa de cabos de freios para quaisquer que seja a sua moto, desenvolvido com componentes de primeira qualidade, os nossos cabos foram desenvolvidos para suportar os ambientes mais críticos, dentro do nosso portfólio temos cabos para acelerador, afogador, embreagem, freio e velocímetro.

KIT TRANSMISSÃO

//////

Razões para **Comprar**

Alta resistência e durabilidade

- Construído com aço 1045 mais resistente

Vida prolongada da corrente e coroa

- Tratamento térmico especial para prolongar o máximo tempo de uso

Melhor desempenho durante a pilotagem

- Menor atrito e maior desempenho na transmissão

Kit Transmissão

Composto por coroa, pinhão e corrente possui alta resistência ao desgaste e corrosão.

São produzidos em aço 1045 para oferecer o melhor desempenho para motos com até 300CC.

Certificado pelo INMETRO e com rendimento maior em comparação ao requerido pela norma.

O Kit Relação da **Cobreq** é o produto ideal quando se procura:

- Fácil instalação;
- Resistência ao desgaste/corrosão;
- Confiabilidade de um dos principais fornecedores de motopeças do Brasil;
- Produtos certificados pelo INMETRO;
- Carga de trabalho adequada para motos de 100cc até 300cc.

Fluido de freio

DOT 3 e DOT 4 – Dentro da completa gama de produtos Cobreq, oferecemos também três fluídos de freios desenvolvidos especialmente para atender todas as exigências do mercado e em frascos de 200 ml, para que você tenha o melhor aproveitamento, e desempenho com o fluído adequado para a sua motocicleta

Nosso Suporte Online

Trabalhamos para oferecer o máximo de informações para atender as exigências dos nossos clientes.

Para isso você conta com diversos serviços, seja através de aplicativos, sistema de consulta pelo computador, download dos nossos catálogos ou através da nossa Central de Atendimento Técnico.

Tudo em um **só lugar**

Aponte seu celular para o nosso QR Code para acessar todos os nossos principais canais de comunicação, como nosso aplicativo, nossas redes sociais e nosso site.
